## CONSUMES 4,000 CATTLE.

(Washington Post)

Four thousand cattle are slaughtered daily to furnish the 2,000,000 pounds of fresh beef which the United States Army consumes, said a statement issued by the Quartermaster's Department. Official inspectors carefully scrutinize this supply of beef from the time it comes on the hoof to the abattoir until it vanishes from the mess tin to the soldier. Only when found "sound, healthful and wholesome" is the meat passed as acceptable for food.

## UNITED STATES MARINE CORPS

The United States Marine Corps has been increased to 75,000 men and 45,000 more are needed to fill the present gaps. In connection we are starting Marine Corps Week and there will be a special photoplay showing at the Strand Theatre, all that week. It is the finest war drama ever produced. Marine Corps Week begins May 29th and there will be meetings in Evansville and vicinity for the purpose of getting recruits. Drafted men will be accepted for enlistment in the Marine Corps if they will get their release from the local board.

Red-blooded, level-headed, two fisted men are wanted by the Marines. College and high school men are in demand for the higher jobs. Information given to all who desire. The nearest recruiting office is at 8th and Main streets, Evansville, Ind.

WILLIAM G. EHWARGER,  
Sergt. U. S. Marine Corps.

LIEUT. STANTON F. KALK.

When a German submarine sank the destroyer *Jacobs*, of which Lieutenant Stanton Frederick Kalk was the commander, a made great efforts to save the life of his crew, and he died from exposure and exertion. So the Navy Department has provided that his name shall not be forgotten. It is to be commemorated in a new destroyer recently commissioned as the *Kalk*.

## HAD A HOB-NOB.

Theodore Roosevelt and William Howard Taft, former presidents of the United States, met in a Chicago hotel and held their first extended amicable conversation since the national republican convention in 1912. The meeting occurred in the dining room. Col. Roosevelt was at dinner when Mr. Taft entered and made his way to the colonel's table. The men gripped hands and smiled broadly while the other diners rose and cheered.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, Inc.

"Gots-It"—2 Drops—  
Then to the Dance!"Goodnight to Corn Pains—Come  
Feel Off With 'Gots-It'."

"Say, girls, you can laugh at tight shoes, or damp corn-baking weather, big bumpy corns, calluses on the sides of your feet, corns between the toes, hard and soft corns."

"If you will just touch the corn or callus with a few drops of 'Gots-It', what a blessed relief it gives to corn pains! You won't limp any more; you can enjoy the dance every minute. Think to see how that corn or callus will come right off complete, like a banana peel and without the least pain, is just wonderful. 'Gots-It' is the biggest selling among corn removers in the world today, simply because it is so wonderfully simple and almost works. Be sure you get 'Gots-It'."

"Gots-It" the guaranteed, money-back corn-remover, the only one that costs but a trifle at any drug store. M. D. B. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the world's best corn remedy by L. L. Elgin.

## CHILDREN WRITE SLOGAN.

A competition was recently held among Indiana school children by the Federal Food Administrator of that state, prizes being offered for food conservation posters. Thousands of children participated with poster designs and food saving slogans, and the following succinct phrases are given as examples of the children's work:

Be Canny With Food.  
Peel Thin and Win.  
Not That We Love Food Less But We Love Liberty More.  
Spread Butter Thin—Help the Sammies Get Berlin.  
Be a Conservative Bee.  
Bread and Buns Will Beat the Hun.  
Fill all Cans But Garbage Cans. Can Until You Can't.  
Every Spud is a Bullet.  
Save Bacon Until Berlin is Taken.  
Save Navy Beans—Twirl Sink the Submarines.  
Wise Wives Won't Waste.  
Kill Kaiserism in the Kitchen.  
Every Hoosier Help Hoover.  
Eat Fish—a Good War Dish.  
The Nation Beats That Saves Eats.  
Pickle and Can for Uncle Sam.  
The Kitchen is Your Fort.  
Throw away Your Frying Pan—Bake, Broil and Boil All You Can—Sovereign Visitor.

## TO REV. THOS. CHAPMAN.

May 1, 1918.

Dear Father:  
Your last letter came to hand some time ago and of course I was glad to hear from you.

You are probably anxious to know where I am and how I am. I am somewhere in France, that is all I am permitted to say in that respect. My health is excellent and I am enjoying myself immensely.

I can't say much as about all I could say of interest would probably be of value to the enemy should they intercept this letter, and of course the censor would strike out all I might say of a military character.

I suppose you have gotten the P. O. order I sent you before I left the U. S. From your affectionate son,  
J. A. C.

P. S. Address—John A. Chapman,  
Co. A, 65th Eng'rs  
American Ex. Forces.  
Care of Postmaster N. Y. City.

## DECORATION DAY.

The Old Federal soldiers and their friends will meet at the court house this morning at 8:30 o'clock and go out to Riverside and decorate the graves of both Federal and Confederate soldiers.

Friends desiring to contribute flowers can leave them at the court house before 8:30 and they will be thankfully received.

## A TRIP TO THE MOGUL.

On Wednesday Prof. Mallory took the Manual Training class to the Mogul Wagon Plant on an inspection trip. The management was exceedingly thoughtful and showed the boys every possible attention. They were carried through under the personal direction of Mr. James Forbes.

The trip started at the saw mill where the logs are taken from the yards and cut into rough lumber and from there the different steps were traced until the wagon was completed. It is interesting to know that as a by-product the saw mill turns out 10,000 hogheads in a six months season. All of the materials is thoroughly dried before using, for this is the real secret in the building of durable wagons. Under natural conditions wood requires four or five years to dry properly but recently the government drying system has been introduced and under this plan only three or four months are required to fit the lumber for the shop. From the drying plants the lumber is shipped on cars to the wood shop where it is cut and dressed by the latest types of machinery. The iron is electrically hammered in the blacksmith shop. The wheels, which determine the real life of the wagon, are all made by machinery. The spokes are driven into the hubs by electric hammers. Next they are cut and morticed, the rims fitted on hot and the tires securely fastened by hydraulic pressure. When the various parts have been completed they are sent to the painting room and after drying they are ready for shipment. The factory is concentrating most of its force in the filling of government contracts. These wagons are built from blue prints and specifications and the pieces can be counter-parted by those made in other factories. Two types of wagons are built for the government, the rations cart and the escort wagon. Wherever it is possible steel is used in their construction. One noticeable difference is that the hubs are made of steel and the spokes bolted in which method economizes space and strengthens the wagons. Both cart and wagon are finished in a khaki drab and a closely an old prairie schooner.

The first Mogul wagon was hand made by Mr. M. C. Forbes in Hopkinsville in 1871. This wagon which would seem very crude now but an excellent piece of workmanship then sold for \$125. Since the construction of the first wagon the business has steadily grown until in 1908 it became necessary to build the present plant which covers about 15 acres. The main building is a two-story brick, constructed on the E plan, with a floor space of 85,000 square feet, which is made absolutely safe from danger of fire by automatic sprinklers placed every square foot. These sprinklers are connected with a 60,000 gallon tank and also with the city water power in case the tank should be exhausted. All of the machinery is run by electricity, the total horse power of which is 410. The plant has a capacity of from 800 to 1000 wagons per month and at present time, are doing 80 per cent government work, holding their old business and filling the government contracts. The wagons which we made of 80 per cent wood are shipped all over the south and also into California, Washington and Oregon and everywhere the customers are more than pleased with the "Mogul" which under ordinary conditions will last a life time. The Mogul Wagon factory represents an investment of between \$300,000 and \$400,000 and has an annual payroll of about \$75,000. The reason for the location of a plant of this magnitude in Hopkinsville was the fact that the best timber for the construction of wagons is obtained in the forests of Kentucky Tennessee and Arkansas, and for this reason wagons can be sold cheaper than they could if they were located elsewhere. The Mogul Wagon factory is a plant that Hopkinsville may well be proud of.

## RED CROSS WORKER AT 10.

(By International News Service.)

Springfield, Ill., May 29.—Illinois has the youngest member of the French Red Cross. She is Miss Dorothy Dickson, aged ten, daughter of Adjutant-General Frank S. Dickson. The honor was bestowed on her by La Viscontesse D'Etchegoyen, president of the French Red Cross, on request of Captain Harry Johnson, a former attaché in General Dickson's office, who is now serving in the American army in France.

GIRL BOOTBLACKS PROUD  
TO TAKE PLACES OF MEN.

(By International News Service.)  
Yakima, Wash., May 29.—"We are proud to release men for active war service," said one of the girls who have taken over a shoe blacking stand here. The two young women

declare the work is not hard, and although they do not exactly like the name "bootblack," they are willing to do their share to help win the war. Their stand is liberally patronized.
